OUR HISTORY

/ STARTING THE JOURNEY IN 1951 /

72 years of
experience

25 countries we
now operate in

Then In July of 1951, Bill Moog invented the servo valve and, together with Art Moog and Lou Geyer, formed the Moog Valve Company.

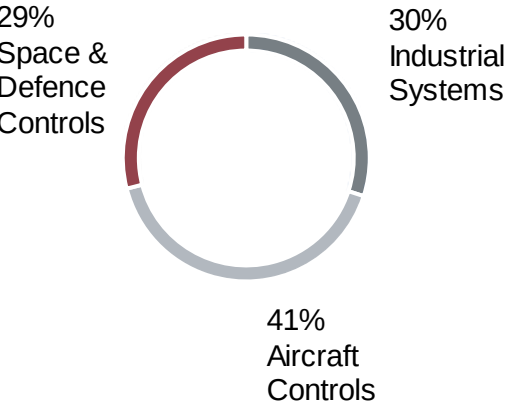

Now Moog engineers design and manufacture the world's most advanced motion control products.

Tomorrow Moog continues to grow and innovate by investing in technologies that will have a great impact on the world we live in.

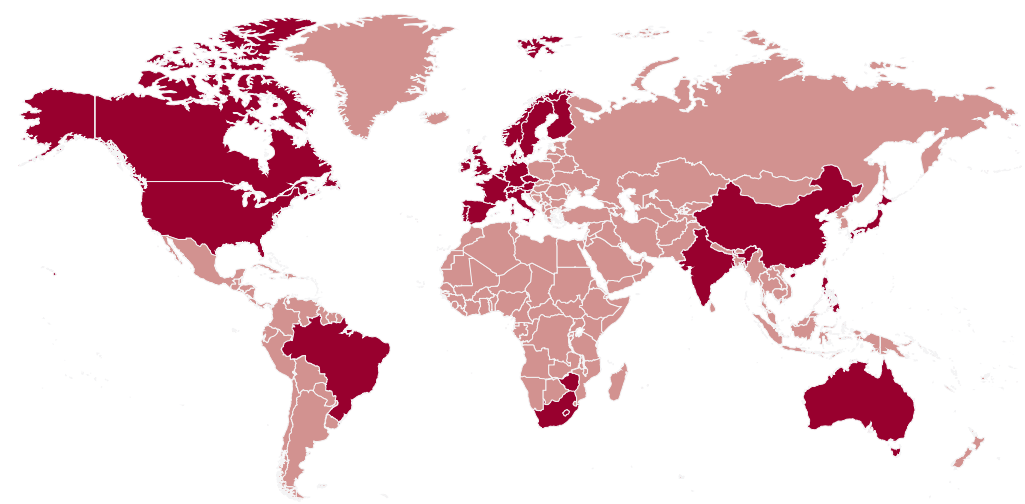

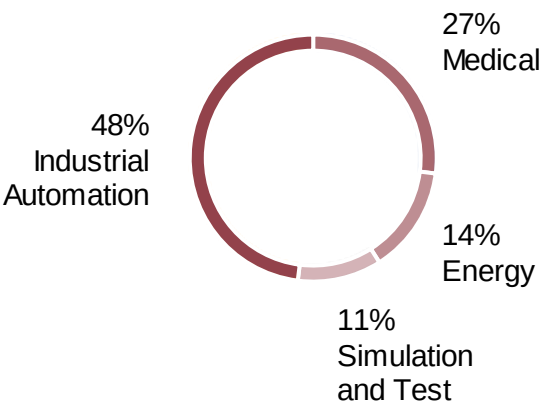

OUR GLOBAL IMPACT

/ MOOG AT A GLANCE /

PEDIGREE OF DRIVING SIMULATORS

/ DELIVERING REALISTIC EXPERIENCES
TO ACCELERATE DEVELOPMENT /

For driver training and vehicle development, Moog's high performance motion cueing in conjunction with motion bases and seat shakers enables the delivery of realistic human-in-the-loop simulators.
