

BRIDGING THE GAP BETWEEN TESTING AND SIMULATION

2020 INTERNATIONAL
VI-grade CONFERENCE

HOTEL ME SITGES TERRAMAR
SITGES, BARCELONA, SPAIN

MAY 12th – 13th – 14th, 2020

2020 INTERNATIONAL VI-grade CONFERENCE

HOTEL ME SITGES TERRAMAR, SITGES, BARCELONA, SPAIN | MAY 12th – 13th – 14th, 2020

Dear VI-grade Users, Partners and Friends,

we are happy to announce the **2020 edition of its International Conference!**

The event, dedicated to executive managers and experienced engineers from the main automotive and transportation companies, tier1 suppliers, motorsport teams, universities and research centers from all over the world, will be held on **May 13th-14th, 2020** at the **HOTEL ME SITGES TERRAMAR**, located in the city of **Sitges, Spain** (in the outskirts of Barcelona).

The conference will give the VI-grade international community of users, partners and prospective customers the opportunity to learn more about **how the main players of the worldwide automotive industry currently use simulation and driving simulators** to accelerate the development of new vehicles.

The 2020 International Conference will also feature an **Ice Breaker social event in the afternoon of May 12th**, where all registered attendees will be invited for an informal get-together at the **Applus+ IDIADA premises in Santa Oliva** to learn more about how the **combined use of state-of-the-art driving simulator technology and fully equipped proving ground facilities** can efficiently **bridge the gap between testing and simulation**, with particular reference to **Vehicle Dynamics, Ride and Comfort, ADAS/AV, HMI** and **Motorsport** applications.

Register now on: conference.vi-grade.com

We are looking for papers showcasing state-of-the-art applications of VI-grade products and solutions in the automotive and transportation industries and related to the following applications:

Vehicle Dynamics • **Ride & Comfort** • **ADAS & Autonomous Vehicles** • **Human-Machine Interface** • **Motorsport**

Particular attention will be given to papers showing how VI-grade solutions are used to "bridge the gap" between testing and simulation.
Deadline for abstracts submission is January 31st, 2020.

We are looking forward to welcoming you in Sitges!
